

St. Philip's

R.C. Primary School

Welcome

Introduction

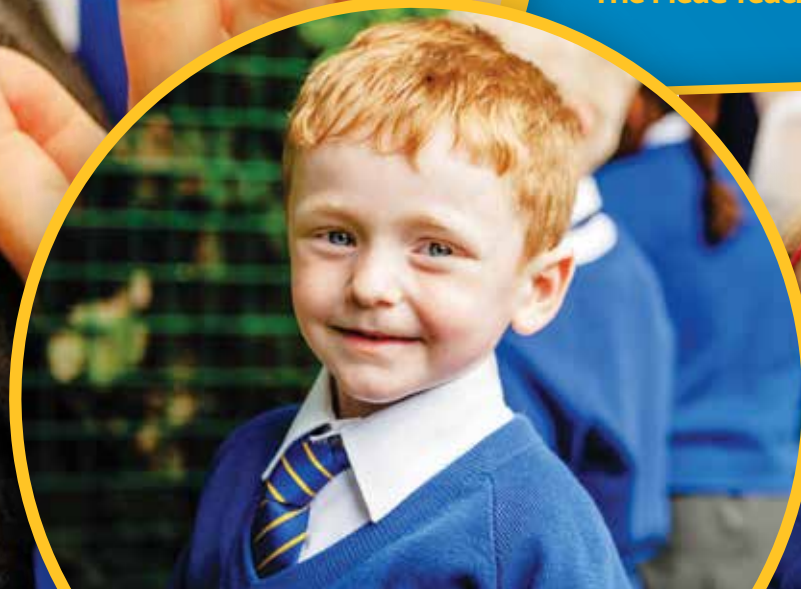

Welcome to St. Philip's R.C. Primary School. We believe that, guided by Jesus Christ, our children can achieve their full potential. At St. Philip's, we strive to ensure that children receive an inspiring, enriching, engaging curriculum which, along with strong and supportive pastoral care, support our children in becoming well-rounded and responsible citizens of the future.

We believe that parents play a vital role in the education of their children and greatly value the partnership we have between home and school.

We actively encourage parental involvement and welcome parents as part of our school family.

We look forward to forging new partnerships and welcoming you to our school.

The Head Teacher and staff.

Mission Statement

St. Philip's is a Catholic school and has the life and teaching of Jesus Christ as its foundation.

Through the Catholic ethos of our school and through the celebration of feasts and the Church's seasons, the children come to know Jesus Christ as a person and friend who guides them through life.

Our mission is to provide a Catholic education with a curriculum that is broad and balanced with R.E. at its core.

We aim to achieve the highest possible standards and to provide for the special needs of our children. We strive also to help each person in the school community to grow in fullness of life and to fulfil their potential.

We recognise that each child is unique and each contribution to school life is valued and accepted.

We work with the parents and people of Our Lady of Dolours parish to teach the Catholic Faith and the moral values of the gospels. In this way, we serve them and through them the wider community.

Aims

With Christ at our centre we aim to:

- Provide a loving, stimulating and secure environment where the achievement and success of every individual is recognised and celebrated.
- Provide opportunities for all our children to achieve the highest possible academic standards.
- Foster, stimulate and nurture each child's faith and provide opportunities for the expression of this through worship and prayer.
- Help our children develop a respect for themselves and an awareness, understanding and respect for other people's faiths and cultures.
- Develop in our children self-discipline, confidence and lively enquiring minds, so that they will wish to acquire the knowledge, skills, values and attitudes to function as responsible individuals and as members of society.
- Provide challenging opportunities for each individual to realise their full potential in their religious, intellectual, social, emotional, physical and aesthetic development.
- Provide equal opportunities and a broad and balanced curriculum which all children can access, regardless of ability, gender, race or cultural background.

Learning through harmony and respect

To build understanding and tolerance in a Christ-centred community.

The life and teaching of Jesus Christ is at the very centre of all that happens within our school. The values of the Gospel are lived out each and every day as children learn to love, respect and care for each other.

We recognise and celebrate that each child is unique and value our role within a school, parish and global community. We fulfil our duty to support others less fortunate than ourselves by raising money for charities such as CAFOD and Caritas Salford.

We encourage positive behaviour through praise, encouragement and reward and by providing positive role models for our pupils. Children show true witness to their faith and leave school ready to fulfil the roles of God's ambassadors within society.

Learning through exploration

To develop lively and enquiring minds through exploration and enterprise.

Our pupils are encouraged to question and investigate themes of study. Wherever possible we adopt a hands-on and practical approach to learning, ensuring that visual, auditory and kinaesthetic learners can all achieve success.

We provide an enriching curriculum where children can explore a topic in great detail, posing deep lines of enquiry, exploring issues and solving problems.
